SUMMARY

Dynamic and results-driven professional Skilled in developing innovative solutions and optimizing processes across diverse industries. Proficient in Python, JavaScript, Mendix, C++, DSA, MERN Stack, and Insights Hub, with a proven ability to create scalable solutions. A motivated problem-solver with a passion for understanding system logic and driving impactful results. Adaptable and eager to embrace new technologies or languages to meet project requirements. Seeking for opportunities to face challenges and develop my skill set.

WORK EXPERIENCE

Graduate engineering trainee , PLM Indistech

July 2024 - Present

- Assisted in optimizing the automation process for our client.
- Came up with plans on how to reduce cost, increase speed and give optimized solution using a cloud platform.
- Developed an application that digitalizes a factory and helps the workers to analyze, understand and use their machines effectively at a higher pace..
- Built a security system for the top management to monitor the factories at Vikram Solar Ltd.

Cloud intern project, Microsoft

May 2023 - Aug 2023

- Developed a University Campus Online Automation page using Azure, Bash, Shell Scripting, Node.js, and TypeScript.
- Passed Microsoft Azure Fundamentals examination and demonstrated web development proficiency.

AICTE Virtual Internship

Nov 2022 - Dec 2022

- Cloud Computing internship consisting of a final test where I worked with AWS and scored 97/100.
-

PROJECTS

HotFeet - Full Stack development

Jul 2022 - Aug 2022

- Created a dynamic website for shoe price comparisons from various retailers.
- Enhanced user experience and front-end design for improved usability.

Stockhome – MERN STACK(Finance)

Jan 2023 - Feb 2023

- Conducted a meticulous analysis of historical stock prices (e.g., AAPL), emphasizing key financial metrics such as daily returns, moving averages, and volatility.
- Collected and preprocessed data from Yahoo Finance, ensuring accuracy and completeness.

User Engagement Platform - React.js, Node.js

Jul 2023 - Aug 2023

- Developed a platform integrating daily newsletters, a real-time chat box, and a live feed for user-generated content and discussions to promote user engagement and information sharing.
- Defined success metrics including user engagement, active user count, and revenue generated.

White board- Java script and Gemini

June 2024 - June 2024

- Created a white board using Java script, Gemini and other APIs that enables you to draw anything you want and using an AI we predict what you have drawn and show you matching results.

EDUCATION

SRM Institute of Science and Technology, KTR
Bachelors in Technology (CSE)

August 2020 - May 2024

CGPA: 9.19

SKILLS

TECHNICAL SKILLS

- **Programming Languages:** Python, C/C++, JavaScript, TypeScript
- **Web Development:** Node.js, React.js, HTML, CSS, Mendix
- **Cloud Platforms:** Azure, AWS, Insights Hub
- **Databases:** MySQL, MongoDB, SSMS
- **DevOps:** Azure Pipelines
- **Design:** UX Design, Flutter

SOFT SKILLS

- Problem Solving
- Excellent Communication
- Adaptability
- Collaboration
- Time Management
- Creative Interest
- Self-Motivation
- Proactive
- Leadership
- Attention to Detail

CERTIFICATIONS

- AWS Academy Cloud Operations - AMAZON
- Azure Fundamentals- MICROSOFT
- MATLAB Certifications- MATLAB
- Oracle Academy- ORACLE
