PROFILE SUMMARY

Analytically driven **B.Tech CSE student (VIT-AP, 2026)** with hands-on experience in **data analysis, visualization, and machine learning**. Skilled in **Python (Pandas, NumPy, Scikit-learn)**, **SQL**, and **Power BI (basic)** with a strong foundation in statistics and problem-solving. Proven ability to transform raw data into actionable insights and deliver measurable business outcomes through structured data pipelines and automation.

EDUCATION

B.Tech, Computer Science & Engineering, VIT-AP University
CGPA: 7.91 / 10

Aug 2022 – May 2026

Senior Secondary (XII), Adharsh Jain School, New Delhi
Percentage: 80

May 2021

SKILLS

Programming & Analytics:	Python, C++, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, SQL, Excel
Machine Learning:	Regression, Classification, Clustering, Ensemble Models, Model Evaluation
Visualization & BI:	Power BI (Basic), EDA, Data Storytelling, Dashboarding
Database & Cloud:	MySQL, MongoDB, AWS (EC2, Cloud Foundations, Architecting)
Additional:	DSA, OOP Concepts, REST APIs, Git & GitHub

EXPERIENCE

Data Analytics Intern
SM Hotel Business

Dec 2024

- Analyzed hotel occupancy & sales data using SQL and Excel to identify seasonal demand patterns.
- Extracted insights that improved occupancy rate by **12%** through data-driven pricing adjustments.
- Presented dashboards to management, improving strategic decision-making efficiency.

Full-Stack Developer Intern
Blackbucks

Feb 2025 – Jun 2025

- Built a **MERN-based web app** with optimized REST APIs for scalable performance. Reduced API latency by **30%**.

PROJECTS

Image Captioning using CNN and RNN: Developed an image captioning model using **CNNs** and **RNNs**, trained on 40k Flickr images to generate descriptive text. Employed **DenseNet201** for extracting visual features and **LSTM** for translating these features into coherent sentences. Enhanced model performance by training on **80%** of datasets to refine text generation and address redundancy issues.

Resume Screening: Developed a Python-based resume screening with **NLP** techniques, achieving **99% accuracy** in job category prediction. Utilized **SVM**, **KNN**, and **Naive Bayes** to refine classification, and applied cosine similarity for resume-to-job matching. Enhanced efficiency in candidate selection by integrating **ML algorithms** and precise matching techniques.

CERTIFICATIONS

- **AWS Academy Cloud Foundations** — Covered AWS fundamentals including EC2, S3, IAM, networking, and cloud security basics.
- **AWS Academy Cloud Architecting** — Learned to design and deploy scalable, cost-efficient AWS solutions using EC2, RDS, and load balancing.
